ABOUT US

American Fire Glass® is a pioneer in the fireplace/ fire pit glass and burner products industry. Our team, brand, marketing, packaging, and technology is what sets us apart from anyone else.

At American Fire Glass®, we strive to achieve excellence in everything we do, including: using the best quality materials, employing state-of-the-art manufacturing processes, implementing stringent quality controls and recruiting the best people to handle all the processes. We leave no stone unturned in our quest to be the very best!

HUMBLE BEGINNINGS

American Fire Glass® was founded in early 2004 by Matt and Kelly Doll. Since then, it has grown from a two person operation located in a 400 square foot garage to its newest 20,000 square foot manufacturing facility, serviced by over thirty employees.

AFG TODAY

Today, American Fire Glass® supplies high quality products to many of the best known firms in the hearth, fireplace and firepit industries. In addition to our OEM clients, AFG products can be found in many upscale restaurants, breweries, hotels, sports stadiums, casinos, celebrity homes and beautiful backyards throughout North America.

FIRE GLASS CALCULATOR

HOW MUCH FIRE GLASS DO I NEED?

NOTE: Most fire features require more than 10 pounds of fire glass.
 Our 10 pound jars & bags allow for mixing a variety of fire glass colors to customize your fire feature, to top off existing features, or for use in a variety of home craft projects. You can easily calculate how much fire glass you will need by scanning the QR code below, visiting our online calculator at americanfireglass.com/calculator, or checking any of the charts below.

LEARN MORE.
 SCAN ME TO CALCULATE.

ROUND FIRE GLASS CALCULATOR

Diameter	Fireglass/ lbs	Diameter	Fireglass/ lbs
12"	10	32"	90
14"	20	34"	100
16"	20	36"	110

CSA CERTIFIED BURNER KITS

C

US

WHAT'S INCLUDED

- **Stainless Steel:** Manufactured using rust resistant 304 stainless steel, this fire pit burner pan is built for longevity and performance.
- **Flame Sensor:** Automatic flame sensor "thermocouple" detects presence of flames & closes the gas line if the flames are extinguished.
- **Spark Ignition Pilot Assembly:** Battery powered push button ignites the flame using a rapid spark ignition.
- **Units are shipped ready to install using Propane Gas.** Natural Gas conversion kits are available.
- **CSA Certified:** Certified under ANS Z21.97-2014/CSA 2.41-2014, Outdoor Decorative Gas Appliance.

*Simple user operation

*Includes all components, certified, & ready to connect.

*Secure controls to the fire pit structure

*Bottom view

*Includes stainless steel burner ring

CSA ROUND DROP-IN KITS

When designing a Fire Feature, Safety should always be your number one concern. The CSA certified Fire Pit Pan Burner product line from American Fire Glass® is designed and crafted to be compliant with international CSA certifications.

ELECTRONIC IGNITION KITS

SMART IGNITION TECHNOLOGY

The American Fire Glass® S.I.T. System (Smart Ignition Technology) configuration provides the highest level of intelligence and safety for Natural Gas or Propane outdoor fire features. With the flip of a switch, outdoor fire features are turned on or off, and are constantly monitored for the presence of fire. If fire is not detected, the S.I.T. System automatically makes multiple attempts to re-light, and in the event of the fire feature not properly re-lighting, the system automatically closes the internal gas valve as a safety precaution.

FIRE PIT PANS

STAINLESS STEEL

ROUND DROP-IN PANS WITH PRE-INSTALLED RING

American Fire Glass® Round Drop-In Pans are easy to install, featuring a 2 ½" depth, 1 ¼" support rim, ½" nipple, and drilled weep holes. These weep holes allow proper drainage of water. Manufactured using high quality .304 stainless steel, these pans can withstand high temperatures and exposure to the elements. You can use our drop-in Fire Pit Pans in both propane and natural gas applications. Every pan includes a removable plate for ignition upgrade options.

25"
 SS-RSP-25-ASBL

 BTU: 92,000/hr

NOTE: Drop-in Pans have an additional 1 ¼" Support Rim and are 2 ½" deep

ROUND FLAT PANS WITH PRE-INSTALLED RING

Our American Fire Glass® Round Flat Pans are manufactured using high quality .304 stainless steel, and are sturdy, weather resistant, and durable, making them perfect for outdoor fire pits. Designed for a concealed look when used with stack stone, concrete block, precast bowls, tile or many other fire pit components. Pre-drilled weep holes allow proper drainage of water. Available in a large variety of sizes, we have the right pan for your fire pit. Every pan includes a removable plate for ignition upgrade options.

FIRE PIT RINGS

FIRE PIT RINGS

If you are looking to build a new fire pit or give a makeover to your existing one with colorful Fire Glass or Fire Rocks, then our Fire Pit Rings are the right choice for you. American Fire Glass® Fire Pit Rings feature a cross bar single, double, or triple ring design, that allows gas to circulate better giving you a bigger, more realistic "camp fire" like flame. AFG Fire Pit Rings are made using only high quality .304 stainless steel, which gives it immense strength and resistance to rusting. Our Fire Pit Rings are available in a wide variety of sizes, so you can choose the one that best fits your fire pit. While choosing, you will need to make sure that the Fire Pit Ring is at least 6" smaller than the interior diameter of your fire pit.

H-BURNERS

H-BURNERS

American Fire Glass® H-Burners are designed specifically for use with Fire Glass and Fire Rocks. The dual rows provide the burner optimal flame for Fire Rocks or Fire Glass, and the ergonomic design creates a flame that is large, and spreads evenly across the entire fireplace. AFG offers H-burners in a variety of sizes that we manufacture using top quality .304 stainless steel. It is the perfect candidate for a simple installation. You will just need to install the burner, and your fireplace will be ready for an amazing fire display. The holes are drilled and not punched so you will not get the constant whistling noise often found with cheap imitation burners.

FLAME GUARDS

FLAME GUARDS

American Fire Glass® Fire Pit Flame Guards are specifically crafted to surround, control, and protect fire pits from the potentially damaging effects of wind-blown flame. Our Flame Guards are constructed of tempered safety glass, with polished edges and easy to assemble chrome corner brackets. We recommend the use of our Flame Guards in all fire pit installations located in potentially breezy and/or windy areas.

SQUARE FLAME GUARDS

DEALER TOOLS

Jewel Jar POP Display

Stocking American Fire Glass® is a sure fire way to dramatically increase sales. Our display holds 36 jars that will sell themselves.

10 LB Jewel Jar

Jewel Jars have transformed how Fire Glass is delivered to the consumer. The Jewel Jar design and eye-catching graphics allow for a confident purchase of superior quality American Fire Glass®.

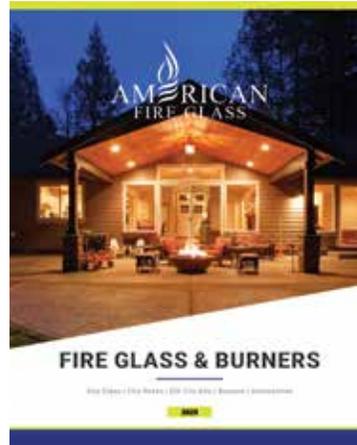

10 LB Drop-Ship Bag

Whether you are an E-Commerce business or a Contractor, these bags were designed with you in mind. We can ship up to 6 bags per box direct to your customer.

Burner POP Display

This rolling trilateral display will allow you to showcase multiple great offers from our American Fire Glass® burner line. We know that visual marketing is an important aspect to selling products and this Tri-Sided Burner Display Rack will draw the attention of potential customers from any direction.

Catalog

The American Fire Glass® product catalog should be part of every dealer's marketing toolkit. This professionally designed brochure features more than 1200 products and offers full color high quality product images giving your customers the opportunity to find what they need for all of their fire media needs.

Fire Glass Sample Cards

Coming soon! This 20 pocket sample card comes in 2 different offerings and features our top selling colors, and packed with fire glass information to help educate customers on their purchase.

Tri-Folds (25-pack)

A single tri-fold brochure provides 6 individual panels split between the front and back of the leaflet allowing you to easily introduce your customer to all of our fire media products.
